LIVE UNIVERSITY LIFE
TO THE FULLEST

2017-2018

OUR DNA

Our DNA is made up of three factors

INNOVATION

We innovate academic curricula to focus on you and your learning process. The teaching you will be given at UCJC is unlike traditional university teaching. We stand out from other universities thanks to our open educational model and approach that is much more relevant to the times we live in.

AN INTERNATIONAL OUTLOOK

Here you will become more independent, we provide you with tools to steer your professional career and do so in a global context. You will be taught by first-class lecturers from many different countries. Furthermore, you will complement your academic training at some of the best universities from around the world.

INTERDISCIPLINARITY

Share classes with students from other degrees and acquire knowledge beyond your specialisation, combining knowledge and cultural backgrounds to confidently tackle the complex challenges of the 21st century.

We prepare our students to tackle the challenges of a dynamic society with a changing job market through **humanities, sciences and technology**. We are therefore seeking candidates who are ready to think, reflect and take risks through thought and action.

WE WILL CHANGE YOUR WAY OF UNDERSTANDING UNIVERSITY

The University Camilo José Cela prides itself in not doing things in a conventional way. The world has changed, and we must offer new solutions to these new challenges.

We are looking for people like you. If you are curious, inquisitive, with an enterprising spirit and want to change the world, if you are not willing to settle for what you are because you want to be better, then we offer you a warm welcome.

OUR FOCUS IS DIFFERENT

At UCJC we believe in quality above all else, offering new disciplines adapted to a new changing job market and we place great importance on skills and abilities that will enable you to shine in whatever you go on to do.

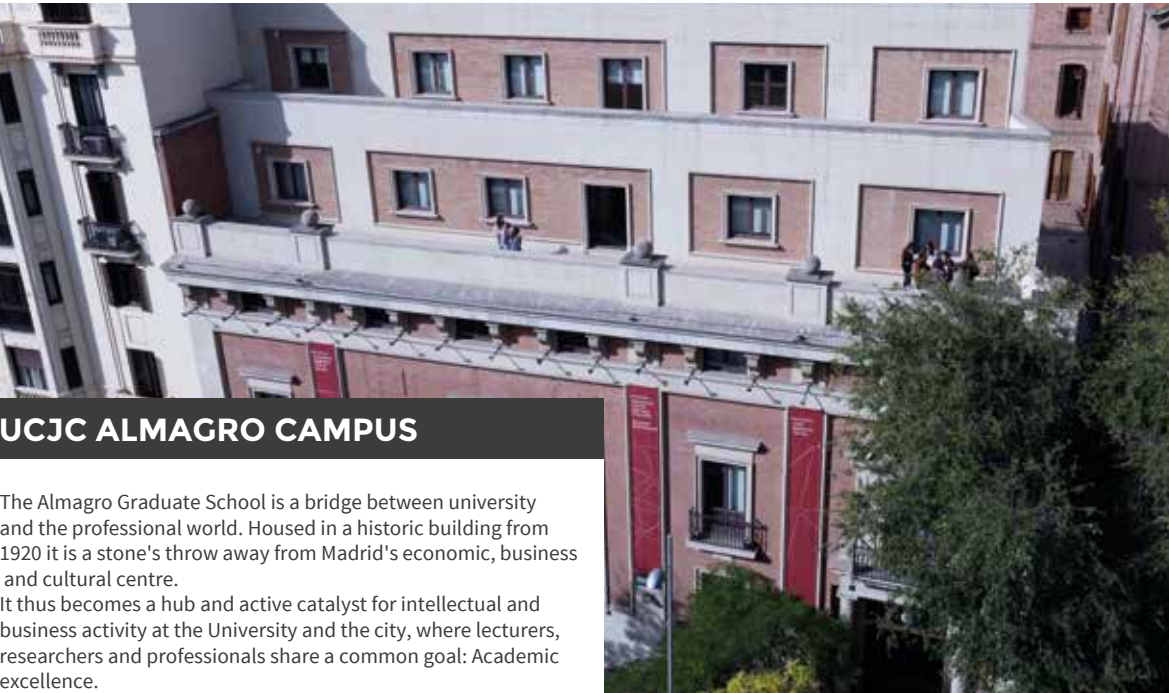

DON'T SETTLE FOR STUDYING JUST ONE FIELD

Do you want to learn about different things? Would you like to work in something spanning different fields? At UCJC we believe that the learning process is much more comprehensive and satisfactory when it is interdisciplinary. This way we prepare you for a future full of complex realities.

PROGRAMME

Open your mind to new possibilities

Acquire knowledge beyond your specialisation. Share classes with students from other specialisations. In addition to acquiring knowledge, you will acquire competencies and skills such as: interaction, reasoning, solidarity, technology and languages. Stand out in the job market. UCJC's own curricular experience will make you a well-rounded professional, with the ability to manage your own career under any circumstances.

UCJC ALMAGRO CAMPUS

The Almagro Graduate School is a bridge between university and the professional world. Housed in a historic building from 1920 it is a stone's throw away from Madrid's economic, business and cultural centre. It thus becomes a hub and active catalyst for intellectual and business activity at the University and the city, where lecturers, researchers and professionals share a common goal: Academic excellence.

UCJC VILLAFRANCA CAMPUS

The Villafranca Campus has an extension of over 100,000 m2 of infrastructure. Surrounded by nature and just 20 minutes from the centre of Madrid. The campus is fitted with the latest technology and practical work spaces from each degree and school, leisure spaces, meeting rooms for group work and top-class sports facilities.

WHERE DO YOU WANT TO LIVE?

Live on our campus, an ideal place where you will begin to gather a network of people and a host of experiences that will stay with you for the rest of your life. Our Villafranca Campus has two halls of residence. Housing over 130 students in double and single rooms and access to all the university's teaching and sports services and facilities.

MEDIALAB

All the resources you need to bolster your creativity

You know you are a great communicator. Don't settle for facilities that do not meet the needs of your ambition and talent. At the UCJC MediaLab you will be able to carry out your on audiovisual projects from the very first year of your degree.

- A TV studio with control room.
- Networked multimedia rooms with the following software: Final Cut, Avid Media, Composer, Protools and the full Adobe Suite among others
- Radio booths and mixing tables.
- HD and 4k recording equipment
- Photography kit

SPORT

We provide you with all you need to succeed

Great athletes are perfectionists, always aspiring for more, always striving to break another record. UCJC Sport Club is a unique university sports club. Our Villafranca Campus has specialised instructors and academies to practice the major sports.
